## About **Our Company**

GKBANS Limited is a Ghanaian multi-disciplinary company delivering integrated solutions in engineering and construction, information and communication technology (ICT), and public communications. The company was established by a team of experienced professionals with strong backgrounds in engineering, technology, and strategic communications, in response to the growing demand for competent and reliable service providers within Ghana's public and development sectors.

GKBANS Limited is structured to support government institutions, state-owned enterprises, district assemblies, and donor-funded projects by providing end-to-end solutions that combine technical delivery with effective stakeholder engagement and digital enablement. Through its integrated operating model, the company ensures projects are delivered efficiently, transparently, and in alignment with national development priorities.

*Building integrated solutions that turn vision into sustainable impact.*

## Vision & **Mission**

### **Vision**

To become one of Ghana's most trusted and reliable integrated service companies, delivering high-quality engineering, digital, and public communications solutions that support sustainable national development.

### **Mission**

To provide world-class, integrated services across infrastructure development, digital transformation, and public communications by combining technical expertise, innovative technologies, and effective stakeholder engagement to deliver impactful and sustainable projects.

# Our **Core Expert Areas**

GKBANS Limited provides specialised expertise across the following key areas:

- Civil and infrastructure engineering
- Roads, bridges, drainage, and flood control systems
- Government and institutional buildings
- Water supply, sanitation, and rural water solutions
- ICT infrastructure and digital systems
- Smart infrastructure and technology-enabled solutions
- Public education and awareness campaigns
- Stakeholder engagement and community sensitisation
- Project documentation, reporting, and media relations

This multi-disciplinary capability enables GKBANS Limited to serve as a single-source delivery partner for complex public sector projects.

# Business **Structure**

GKBANS Limited operates through three core operational divisions, each delivering specialist services while working collaboratively to ensure seamless project execution:

## *GKBANS Engineering & Construction*

Civil, structural, and infrastructure development services.

## *GKBANS Technologies*

ICT systems, digital platforms, and smart solutions for public institutions.

## *GKBANS Digital Communications*

Public communications, stakeholder engagement, media relations, and project documentation services.

# Engineering & Construction Capability

The Engineering & Construction Division of GKBANS Limited provides comprehensive civil and infrastructure services across Ghana, with a strong focus on government and public sector projects.

## Key Capability Areas

- Road construction, rehabilitation, and maintenance
- Bridge construction and associated civil works
- Drainage systems and flood control infrastructure
- Government office buildings and institutional facilities
- Affordable housing and social infrastructure projects
- Water supply and sanitation infrastructure

## Delivery Strengths

- Qualified and experienced civil engineers
- Strong project management and site supervision systems
- Ability to mobilise labour, equipment, and materials efficiently
- Strict quality assurance and compliance procedures
- Integration with digital and communications teams for community engagement

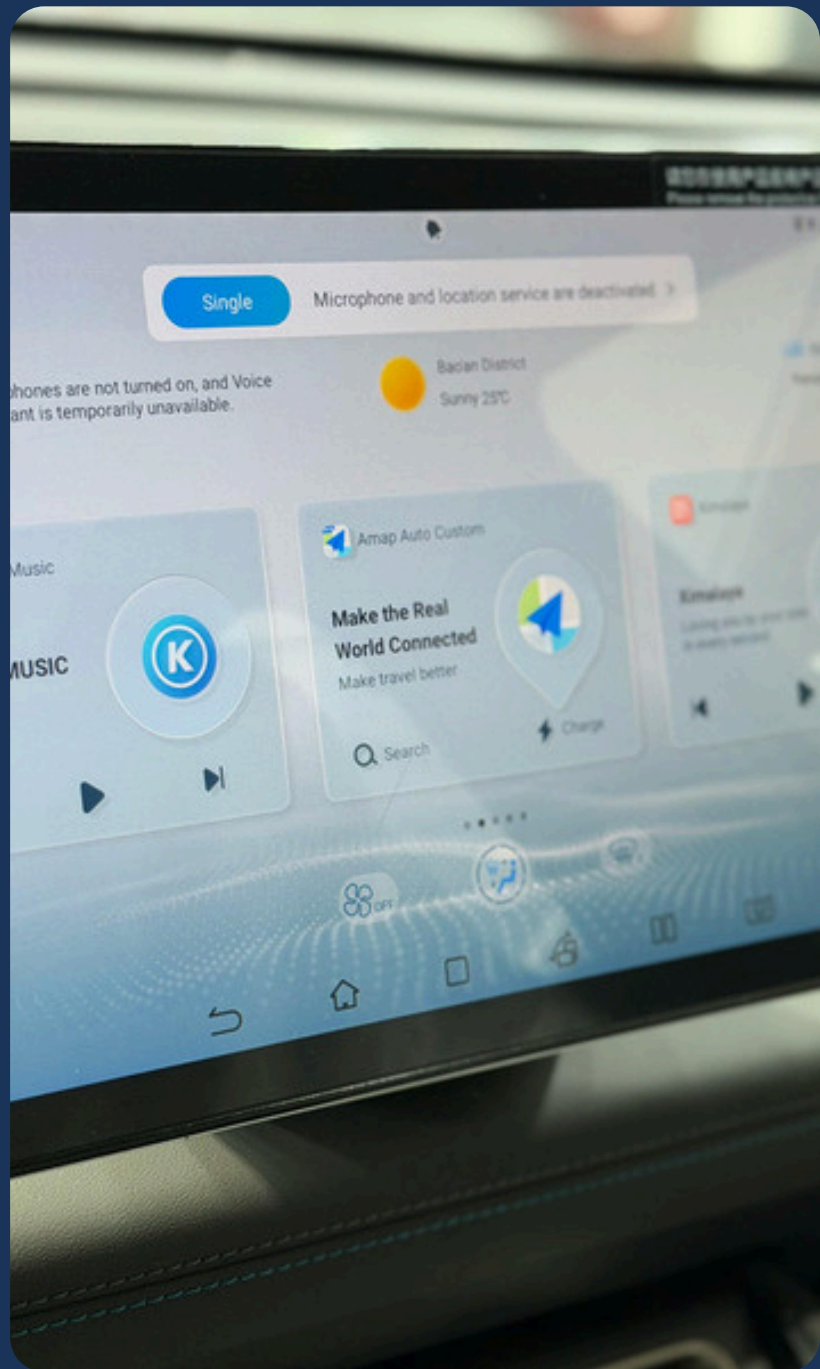

# Digital Communications Capability

The Digital Communications Division provides strategic communications and stakeholder engagement services critical to the success of public sector and donor-funded projects.

## Key Capability Areas

- Public education and awareness campaigns (health, sanitation, taxation, road safety)
- Public relations and media relations for ministries and public agencies
- Stakeholder engagement for infrastructure and construction projects
- Community sensitisation and mobilisation programmes
- Social media management for public sector initiatives
- Graphic design, videography, drone footage, and project documentation
- Website development and digital dashboards for project reporting
- Content development, speech writing, and official project launch support

This division ensures projects achieve visibility, public understanding, acceptance, and accountability.

# Technology Capability

The Technology Division of GKBANS Limited delivers ICT and digital solutions that support public sector operations, infrastructure projects, and service delivery.

## Key Capability Areas

- ICT infrastructure deployment and support
- Network design, installation, and maintenance
- Digital platforms and information management systems
- Project monitoring and reporting dashboards
- Website and portal development for public institutions
- Technology support for smart infrastructure initiatives
- Digital documentation and data management solution
- Information Security Service.
- Infosec strategy Design and Impl

The technology division works closely with engineering and communications teams to deliver integrated, technology-enabled solutions.

# Target **Clients**

*GKBANS Limited serves a wide range of institutional clients, including:*

Ministries, Departments,  
and Agencies (MDAs)

District, Municipal, and  
Metropolitan Assemblies

State-Owned Enterprises  
(SOEs)

development partner  
projects

# Project **Delivery**

GKBANS Limited adopts a structured and transparent project delivery approach:

- Feasibility studies and site analysis
- Engineering design, drawings, and Bill of Quantities (BOQ)
- Stakeholder engagement and community sensitisation
- Project execution and technical supervision
- Quality assurance and compliance monitoring
- Project handover and maintenance planning

# Health, **Safety & Compliance**

The company maintains strict adherence to Health, Safety, and Environmental (HSE) standards and operates in full compliance with Ghana Labour Laws and international safety best practices, including IFC standards.

# Revenue **Streams**

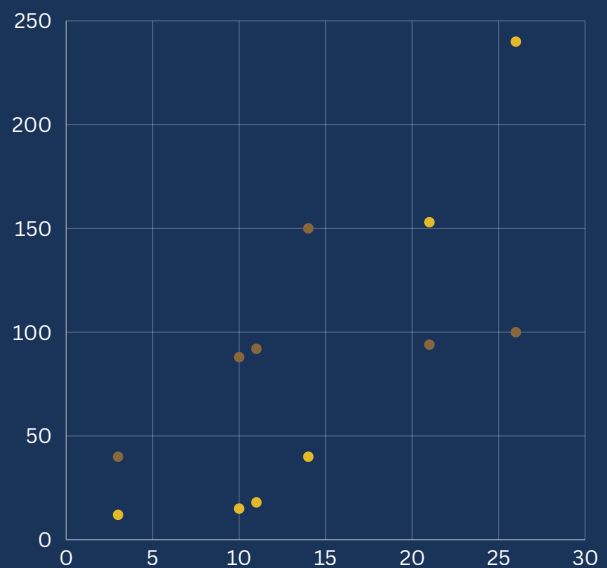

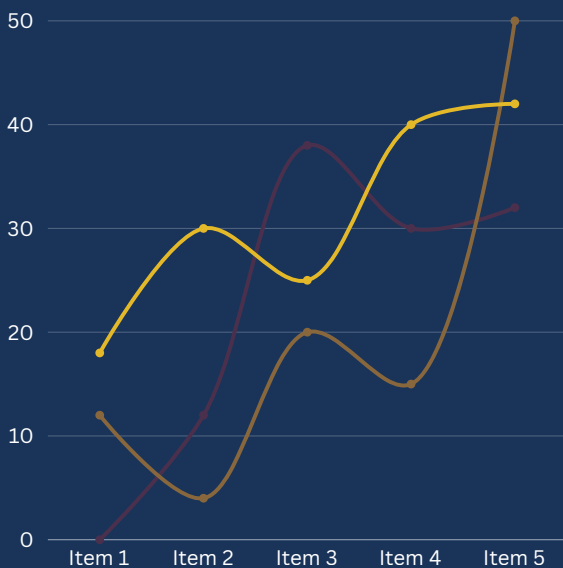

- Civil and infrastructure construction contracts
- ICT services and digital solutions
- Public communications and stakeholder engagement projects
- Maintenance and long-term service agreements

# Growth Strategy

GKBANS Limited's growth strategy includes:

- Registration and active participation on PPA and GHANEPS
- Strategic partnerships with Tier-1 contractors and consultants
- Expansion into donor-funded public sector projects
- Acquisition of relevant ISO certifications
- Continuous capacity building and skills development

## Financial Outlook (Indicative)

- Year 1: GHS 3 million+
- Year 2: GHS 6 – 10 million
- Year 3: GHS 15 – 20 million

## Risk Management

Operational risks such as political changes, payment delays, and competitive bidding environments are mitigated through project diversification, joint venture partnerships, phased invoicing structures, and strong governance systems.
